## TROY, KANSAS:

Thursday. : : : November 21, 1878

HON. SIDNEY CLARKE.-Sidney Clarke has been elected a member of the Legislature from Douglas County, as an independent Republican and is prominently named in connection with the Speakership. An abler man and a better parliamentarian will not occupy a seat in the Honse. Mr. Clarke has done the State good service in the past, and has had sufficient punishment for his misdeeds. He served in Con gress in an era of great temptation, and should having sometimes yielded. We thought be should have bad the United States Marshalship and we now think the gentlemen who controlled the appointment would not have lost any thing by giving it to him. Mr. Clarke started in public life, as a member of the House, seventeen years ago. He has returned to the starting point, and will make his way up again, provided, always, that he remains firm and unwavering in his devotion to Republicanism. He has shown a disposition, during the past few years, to go off at tangents; but he was doubtless vexed into it by opposition and persecution in his own party. Under the circumstances, we can hardly recommend his election to the Speakership; but give him a chance to redeem himself. And let him give the Republicans a chance to regain confidence in him.

The New York Sun pronounces the doom of Tilden and Conkling. Tilden will never again be the candidate of any party for President, and Conkling will never reach a higher position than Senator. Reason-Tilden allowed his friends to consent to the Electoral Commission, and Conkling was the author of that scheme. The Sun permitted Conkling to secure a re-election to the Senate, because, in his last speech, he made no mention of the Electoral sion, which was taken as a confession that it could not be defended; but, because of his connection with the frand, he can never go any higher. Some people, instigated by envy, might say that the Sun is badly cracked on the Presidential fraud question.

It is reported, from Washington, that an olive branch has somehow made its appearance in Republican circles; that there is peace between Hayes and the opposing factions; and that the President has determined to abandon his Southern policy, and enforce the laws. Hayes betrayed and sold out the Republican party of the South: he demoralized and disheartened the party in the North ; he secured Democratic majorities in both houses of Congress, and jeopardized his own title. After doing all this, he finds his Southern policy a failure, and the condition of the South worse than when he came into office. He has been forced to acknowledge

his heart set on going to Congress. He received the nomination in the Lowell District, but was defeated at the polls, in a District strongly Republican, and went crazy. Dr. R. V. Pierce the patent medicine man, of Buffalo, has had better luck, for he has been elected to Congress by the Republicans, in a District that is often Democratic. A few years ago, McCormick, the reaper man, was the Democratic candidate for Cougress in Chicago, but was defeated. Walter A. Wood, the reaper man, has just been elected to Congress by the Republicans of the Troy (N.

The Atchison Champion copies and comments upon the report that Col. Phillips "played off" on the Republican party, in the late campaign, and demands that he rise and explain. It also mentions John A. Anderson's rumored candidacy for the Senate, and strongly objects, advising him not to get too greedy. The Chamre-election of Senator Ingalls. Other gentlemen in the State have a right to be candidates for the Senate, and from what we can learn, there will be a large number of Republican members of the Legislature who prefer some other man to Ingalls.

Greenbackers were taking everything in Southern Kansas, and mentioned Sumner County as an example. Some Republicans down there had told him that in several Townships in the County there were not over four Republican voters left. We see, by the returns, that Sumner County gave a good Republican majority, and that there was not a Township in the County but gave considerably more than four Republican votes. We take it that some of the boys played it on the old man, seeing that he was a little looney on the Greenback question.

If this should meet the eye of Hon. W. W. Guthrie, M. C., he will please forward his bill for hotel fare, livery hire, &c., in his unselfish campaign of the First District, to Phelim O'Kelley, member elect to the Legislature from that District. Misther O'Kelley thinks that he might have been defeated, had it not been for the extraordinary efforts of Mr. Guthrie, M. C., and thinks it nothing more than right that he should pay his expenses. Also, include any little expenses for printing circulars, etc. We call attention to the prospectus of the

New York Observer, in another column. It is the oldest religious paper in America, and one of the ablest, although ultra Presbyterian. But its only merit does not consist in its religious character. It is a large sheet, and one-half of it is devoted to literature, the space being equal to an ordidinary literary paper. We have exchanged with it for years, and never fail to find some of the most interesting literary and historical matter in its columns.

The leader in last week's Bulletin is from the pen of W. W. Guthrie, M. C. It consists, in part, of a sorry imitation of our editorial upon Guthrie, and the remainder of a mess of very poor lies. As a politician and a writer, Guthrie is a lamentable failure; he had better devote his energies to beating men who have had their cattle or their children killed by the railroad of which he is attorney.

The Kannas Pioneer states that the Greenbackers of Doniphan County elected their County Attorney and County Superintendent. As we some time ago stated, facts are non-essential trifles in the Greenback code. We refer the Pigneer's statement to the consideration of Heat-

George T. Authony is a candidate for the United States Senate. Most of the men who ran for the Legislature in his interest were beaten. Ex-Congressman Brown was beaten in Reno and Milt. Reynolds and Bettis were beaten in Labette.

St. John's majority for Governor is almost 40,000 over Goodin-more than two to one. And yet the Democrats thought they were going to carry the State. That Hiawatha paper figured out a Democratic majority of 27,000!

Ex-Congressman Brown takes his defea hard. He has caused the arrest of two editors in Hutchison, charging them, among other things, with causing his defeat. If that is libel, then Kanass is full of it.

Now let us hear how the Christian people of Highland, who could not vote for Phil. Kelley, relish that blasphemous burlesque Thanksgiving article, in last week's Sentinel. A Malicious Threat.

We call the attention, not only of all well wishers of Troy, but of all who wish to see peace, harmony and good-will prevail throughout the County, to an article in last week's Balletin, headed, "Is There Any Danger Ahead?" That article, ostensibly published as a caution, is simply a threat by an unprincipaled and dis appointed man, who, having failed to command the respect and support of the community, is determined, before his final kick, which he feels i not far off, to make an attempt at revenge, although his own friends may be among the heaviest sufferers. He pretends to warn the people of Troy of a future possibility, in the way of moving the County Seat to Severance, as suggested by some one else; but the whole tone o the article, with the reasons assigned, goes to show that the thought originated with the editor of the Bulletin, and that revenge is at the bottom of it. In this article, the Bulletin undertakes to ex-

cite a local jealousy and opposition against Troy in the western part of the County, and to reopen an old bitterness in the eastern part, that has been quieted for years. We had a County Seat fight in this County once, and we do not believe the people want another. Unpleasant as it was in this County, our people know noth ing of the disastrous effects of such contests, a experienced in many other Counties of the State. Some Counties have been well-nigh ruined by by them. They have occasioned burdensom debts; property has been rendered valueless; divisions and comities have sprung up between different parts of the Counties, as deadly as that between two hostile nations or races; and lawlessness, outrage, and even murder, have ensued. While these contests are in progress, or in expectation, nobody will invest or make improvements in a town, or establish business there there is no sale for property; and every induce ment is offered to pull down and discourage. Do the people of Troy want another taste of this? It is what the Bulletin openly threatens: and it invites the western part of the County to open the contest, gives reasons why the other parts of the County should encourage it, and reminds the eastern part of the County that here is an opportunity to accomplish their revenge upon Troy for their defeat in a former contest -and all because certain Republican leaders would not get down upon their knees to the editor of the Bulletin, and open their purses for his benefit.

But lest many of our readers should not see this article, we here copy it entire :-

Is THERE DANGER AHEAD?

A well posted citizen toid us the past season, that inside of ten years Severance would be the County seat of Doniphan County. We gave the subject very little thought at the time. The vote on the 5th instant reveals something that might have a bearing on the subject. The whole vote of the County for Governor was 2,777. The vote for Governor in Iowa, Wolf and Union Townships amounted to 1,254, being but 263 less than half the votes of the whole County. Severance is about the centre of the three Townships. It is on the railroad, it is the very heart of the best farming portion of the County. It is surrounded by wealthy farmers and heavy tax payers. It has energetic citizens, and again, there is a feeling against Troy from many citizens in the eastern part of the County, growing out of the old County seat struggle. There are many men in all parts of the County who claim Troy is owned and controlled by a ring of politicians, and that other parts of the County are left to foot the bills. For these and many other reasons, we might ask the people of this town whether there is reason to believe that there is any danger shead? In our opinion it behoaves the people here to be on their good behavior. The value of a court house and jail would not stand much in the way; \$15,000 would put up better ones in Severance. The influence of the leaders here is given to crush out the weak and disregard the rights of minorities. They had as well cultivate a more liberal state of affairs. Give all parties a hearing, and all tax payers an equal chance.

There has always existed a feeling in Troy inimical to the welfare of the town. It has been that selfish, political feeling, that if a man did not subscribe to the views, and endorse the actions of a few leading politichans here, he must not be permitted to live. We have often told our neighbors that the success of the whole County, and of every town in it, was the policy to be advocated by those who lived and owned property here. We have honestly entertained tha IS THERE DANGER AHEAD! that feeling, but we do no desire to extend the suggestions as cle, and have merely thrown out the suggestions as reminders, that sometimes in our greatest safety is

The milk in the cocoanut is plainly visible "I have been beaten and circumvented at every turn. I am on my last legs. Give me a chance at the patronage, or Troy is ruined." Troy, he the rest of the County is left to foot the bills. Let us ask, if the County Seat were removed to any other town, would not the people have to foot the bills for County expenses? Who allow accounts, and levy taxes? The County Commissioners, two being a majority. One of these officers is in Marion Township, in the eastern part of the County, that the Bulletin says has an old grudge against Troy; and the other is in Iowa Township, near Severance, where the Bulletin wants the County Seat removed to. The new Commissioner elected for that District, is also near Severance. So that it s not Troy, but the eastern and western parts of the County, that control the expenses. And how has Troy overridden other parts of the County? The three best paying offices in the County, are Treasurer, County Clerk, and District Clerk, Wayne Township has the Treasurer, Wolf River the County Clerk, and the Republicans have just given the District Clerk to High land. Of the four members of the Legislature, Troy has not one.

What are these bills for, that the people have to foot for Troy? The salaries of County officers and the cost of Courts would be the same, if the County Seat were not at Troy. A large item is the pauper bills. Centre Township costs the County less for panpers than any other Township except Wolf River. The County has built two costly bridges in Wolf River Township; one on the line between Wolf River and Iowa; half of the big bridge over Independence Creek, near Doniphan; one at Wathena, and one near there; has given Iowa Township \$100 to aid in building bridges; Wayne Township \$100 for the same purpose; Marion \$100 for the same purpose; Burr-Oak \$100 for to aid in dykes and ditches; but Centre Township, not a dollar. This is the way a political ring at Troy are opposing the people, and compelling the rest of the County to foot the bills. And in the face of all this, the ring of politicians have reduced the people's taxes, in two years, \$38,239.

I will be seen that the Belletin's reasons will not wash. But its words of warning have had one effect. They have shown that he would plunge the County into turmoil and expense to gratify his own personal revenge. He would blast a whole town, in order to punish men in it who refuse to come down to him. And yet he has the impudence to ask the town to support

The Bulletin reminds the Greenbackers that the Democracy were willing to combine with them on a County ticket, by which means they might have carried the County. A Greenbacker requests us to state that the offer was very magnanimous on the part of the Democrats. They asked the only offices worth having, giving the Greenbackers the privilege of furnishing mough votes to elect them.

We learn that Ed. W. Waynant, of Marshall County, will be a candidate for re-election to the office of Assistant Chief Clerk of the House, at the coming session of the Legislature. He held that position at the last session, and his experience will render him an eligible person for the place. We hope to see him succeed.

If anybody knows the whereabouts of on Edward Fleischer, will be please request him to empty his pockets of that German vote? The people are getting anxious to know just how badly St. John is beaten.

IF We got awful mad, the other day. We found an article in an exchange on fish culture, in which the writer neglected to mention the

A Poor BEGINNING.-The Greenbackers have closed their second or third campaign as a political party, and what is their prospect of becoming a successful organization? They have had the benefit of all the discontented of other parties, and the novelty of the thing has subside and they have made no progress, except as make-weight. The first year of the Republican organization, they elected every Congressman in Ohio, and elected almost enough in the North to give them a majority in Congress. The Greenbackers have elected not one of themselves. They have secured a few members, but it has invariably been in Districts either very largely Democratic or Republican. The majority either way was so large that the opposing party had no hope of carrying the District, but united upon the Greenback candidate, in order to have the satisfaction of beating their ene mies. They have now and then succeeded in doing this, but it is safe to predict that both

The Kansas Democrats spent so much time in trying to show that they were as good Greenbackers as the Greenbackers themselves, that they drove so many of their voters into the Greenback party as to give them almost as large vote in the State as they got themselves. the Bulletia, that its editor will not bereafter bring his personal fights into the paper. But he will allow W. W. Guthrie to bring his in. Were it not for this, he would have sufficient room to tell the people that he publishes the best local paper in the State, at \$1.50 a year, and ask them to give to it their patronage.

TW Mr. Anderson's majority for Congress, in this District, is over 15,000, being a gain of 2,000 since the last election. He will go to Washington backed by the largest majority of any memper in the House, except those from Districts where Republicans were not allowed to vote. and yet the Democrats predicted that they would carry the District!

SOME TRAVELLING NOTES.

CLEVELAND, O., Nov. 6, 1878. EDITOR CHIEF:-We have been sick, and hence the reak in our notes; but we trust we shall not be annoyed in any manner again, so here we make a fresl

This is a beautiful city, and is full of enterprising men, who are endeavoring to make it still more at-tractive and pleasant. The streets are broad, wellpaved, and lined on both sides with substantial ware ouses, and dwelling places of unusual beauty and home-like attractiveness. When a person goes to a place he has never before seen, if heasks to be shown round, his escort takes him at once to the most ar stocratic quarter, to give him a good impression is the beginning; so this is the reason, we suppose, we ere taken to Euclid Avenue, at the start. It run ast and west, and is over five miles in length, afford ing one of the most delightful drives in the world. The north side of the avenue is called the "nabob, for the reason that all the residences are of an aris tocratic character, have very large lawns, and are richly decorated, while the south side is called the bob," the houses not being so costly as their neighbors', and having but very little ground for yards We accompanied our escort to a house, in course of on, on West Euclid, and were very much pleased with its interior and exterior appearance When fluished, it will have cost \$500,000. This is a owner is very ambitious, and is determined to excel anything heretofore attempted in Cleveland. In the ain eight rooms there will not be any painted wood work nor imitation of any kind, but will be composed of mahogany, rosewood, bird's-eye maple, cedar, and several other varieties of wood, all highly seasoned and polished. The walls are to be frescoed, and the ceilings finished something after the style of the palatial abodes in Europe. Perhaps some will ask how this man obtained so much money; we understand he made it by running ships, steamboats, etc., on the

In such a clean, well-ordered city, we expected to find a model market house, but the strong odors of onions, cabbages, old cheese, and fish, made us feel as if there was not care and attention taken with the vegetables and meats. We did not notice anything of the kind in Chicago, Cincinnati, or St. Louis. A city with a Euclid Avenue ought surely to have a de-

We visited the "Loan Exhibition," yesterday. In artistic displays, it far surpasses those exhibited at the late Chicago Exposition. We spent our time very agreeably among the old relies and pictures. The most prominent painting is one brushed by a Cleve-land artist. It is called "The Birth of the Stars and Stripes." Columbus stands at the left; Martin La her next to him, with a book in his left, and his right hand raised beavenward; and next to him is no George Washington, with his sword thrust through an animal of the alligator variety, which represents oppression; Mr. W.'s face is lit up with a sort of fatherly affection. If we had painted that canvas, we would have first made George III's head on an al-ligator's body; then we would have made old George I, of America, driving a bayonet through the skull of George the III. HIGHLAND NURSERY.

Established in the Spring of 1861—Now in Its 18th Year.

A GAIN offers its usual stock of Trees, Shrubs, Vines Evergreens, and Hedge Plants. The many good orchards in this and adjoining Counties prove its char orchards in this and adjoining Counties prove its character.
This season is favorable for the growth of stock. The younger trees are doing extremely well. The grafts of last Spring's planting, numbering 65,000 choice homemade, are all doing well. These trees are grown here, for the people of Northern Kansas. If you want them, come and buy them. Am selling at lower rates than Eastern nurserymen, and claim that Kansas farmers should plant Kansas grown trees. Come and buy them in quantity, and save for yourselves the cost of canwassing, for understand that this cost is always added to the bill. It does not now seem to me necessary to buttonhole Doniphan County farmers, to induce them to buy home grown trees. The sales of fruit of last year prove that it pays. The fine crop of small fruits and peaches this season, gives a large return for a small outlay.

Trees will be sold at from 5 to 15 cents, according to quantity and quality. Other stock in proportion.

A WONDERFUL REMEDY.

There is no comparison between it and the common slow acting percus plaster. It is in every way superior to all other external remedies, including liminents and the so-called electrical appliances. It contains new medicinal elements which in combination with rubber, possess the most extraordinary pain relieving, strengthening and curative properties. Any Physician in your own locality will comfirm the above statement. For Lame Sack, Rheumatism, Female Weakness, Stubborn and Neglected Colds and Coughs, diseased Kidners, Whosping Cough, affections of the Heart, and all ills for which persus plasters are used, it is simply the best known remedy. Ask for Benson's Capcine Porous Plaster, and take no other. Sold by all Druggists. Price, 25 ets. Sent on receipt of price, by Seabury & Johnson, 21 Platt Street, New York.
